EXPERIENCE

Mantra Labs , Bengaluru — *Trainee Software Engineer*

JULY 2020 - present

At this InsurTech Company my responsibilities are developing **Full stack** Web & Mobile apps according to the Clients requirements.

- Collaboratively developed and implemented the Care Mobile App which was tested by Care Insurance and placed us in compliance with Religare requirements.
- Developed and implemented the **GTI Global Web app** (globaltechinterface.com) in a Team and received Client appreciation for the Job done on time.
- Working closely with project managers, UX designers, other developers, systems analysts and sales and marketing professionals

SJTech Solutions, Bhopal — *IoT Development Intern*

MAY 2019 - JULY 2019

I was in a team which was responsible for developing and delivering IoT products to the Clients and for the Company also.

- My responsibility included developing the modules for various IoT edge technologies like **WiFi, GSM/GPRS/GPS, RF, Bluetooth** and Interfacing various Sensors.
- Got an appreciation from the mentor for Designing a **GPS Tracker** using **SIM808**.

ThingsCloud Technologies, Bangalore — *IoT Intern*

JAN 2019 - MARCH 2019

PROJECTS

IoT based Attendance System —

- Developed a **Camera based Attendance system** which can be configured as a Security device also.
- Technologies used: **ESP32, Camera, WiFi**, Face recognition

Local Weather Monitoring system —

- Developed a local weather monitoring system using ESP8266 and various sensors for applications in the field of Agriculture.
